

WATER FEATURES

TRANSPARENT SPHERE Water falls over an acrylic sphere mounted on a self-contained reservoir which can be concealed in the ground to create the illusion of a floating globe. An optional LED bulb can be fitted for illumination at night. Aqua Globe, from £695, aquaglobe.co.uk

WEATHERED METALLICS An elegant multi-spouted fountain with a weathered finish suits both contemporary and traditional gardens. Available in tall, square or low sizes, it is completely self-contained and includes a built-in submersible pump. Veneto, from £1,395, aplaceinthegarden.co.uk

T CONCRETE This contemporary concrete water bowl add style and movement to the clean lines of a modern garden. Available in three sizes, and with stainless steel, brass or copper trays, the bowls themselves also come in 10 chic finishes. Scupper water bowl, from £2,750, solusdecor.com

WATERY BLOOM Made from hundreds of offset scale-shaped mirror-polished stainless steel 'petals' that make the water zig-zag down its surface, the effect of this modern water feature is one of a shimmering, constantly moving wall of water. Petal wall, from £28,404, davidharber.com
